

This resume is not a good fit for a Head Graphic Designer position. The applicant's experience is primarily in software development, with limited and indirectly mentioned graphic design skills. To even consider applying, the resume needs significant restructuring and focus. However, given the request to optimize it *for* the job description, we will attempt to highlight the *most* relevant aspects, acknowledging its limitations.

****Rewritten Resume (Adjusted for Head Graphic Designer, acknowledging weaknesses):****

****APURVA VATS****

6202166141 | Bangalore, Karnataka, India | apurvavats@email.com (****Add a professional email address****) | linkedin.com/in/apurva-vats-12193b292 | github.com/apurvavats

****Summary****

Highly motivated and results-oriented individual with a strong background in full-stack development and a demonstrable interest in UI/UX design and graphic design principles, seeking a Head Graphic Designer role. Proven ability to learn quickly and adapt to new technologies, coupled with experience in creating visually appealing and user-friendly interfaces. Eager to leverage skills in collaborative projects and contribute to a creative team environment. (****This is a *weak* summary due to lack of direct graphic design experience, but it's the best we can do given the source material.****)

****Skills****

*** **Graphic Design:**** Canva (proficient), Figma (learning UI/UX design & wireframing) (****Highlight what's there, even if limited.****)
*** **Web Development:**** React.js, Tailwind CSS, HTML5, CSS3, JavaScript, Node.js (learning), Express.js (learning)
*** **UI/UX Design:**** Experience designing clean and responsive UIs, wireframing.
*** **API Integration:**** Experience integrating with OpenAI's GPT API.
*** **Version Control:**** Git, GitHub, Visual Studio Code
*** **Problem-Solving:**** Strong analytical and problem-solving skills, demonstrated through algorithmic problem-solving on LeetCode.

****Projects****

*** **Chat GPT Clone:**** Developed a user-friendly chatbot web application. Designed a clean, responsive UI leveraging React.js and Tailwind CSS. (****Focus on UI/UX aspects.****)

* **AgriTech Platform:** Developed a basic front-end for a sustainable agriculture platform, including a dashboard and user interface elements (HTML, CSS, JavaScript). (**Again, emphasize UI related accomplishments.**)

(Remove the Electronics Hackathon project; it's irrelevant.)

Education

* **Bangalore Institute of Technology:** B.Tech in Electronics and Communication, CGPA: 9.63/10 (Sep 2023 - Present)

* **DAV Public School, Patna:** CBSE Class 12, 83.2% (April 2021 - March 2022)

* **Carmel High School, Patna:** ICSE Class 10, 96.8% (April 2019 - May 2020)

(Remove Certificates; they are not relevant for a Head Graphic Designer position.)

This revised resume still lacks substantial graphic design experience. The applicant needs to gain more experience in graphic design before applying for a Head Graphic Designer position. Consider adding a portfolio showcasing graphic design work to strengthen the application significantly. This revised resume attempts to optimize what is available, but realistically needs significant additions and changes based on actual graphic design experience.
